Wildlife Images

A wildlife image is defined as showing one or more organisms living free and unrestricted in a natural or adopted habitat.

Images of zoo, safari park or game farm animals are not eligible. Wildlife images should be as taken by the camera.

No manipulation is allowed except minor retouching of blemishes and changes to levels and must not alter the content of the original image.

Wildlife images can be identified by placing a **W** in brackets at the end of the image title.

NOTE

The file name as presented will be copied for projection in the competition

Please check that the title is spelt correctly

All images are projected onto a black background. Dark images less than 1400 x 1050 could merge with the background and may improve with a border.
